SOUTH DAKOTA Data Supplement

May 1990
Vol. VII, No. 2

Published by Business Research Bureau, The University of South Dakota

*SOUTH DAKOTA RETAIL SALES IN JANUARY AND FEBRUARY 1990 WERE UP 9.5% FROM A YEAR AGO

*RETAIL SALES IN COUNTIES OF THE TOP TEN CITIES GAINED 10%

*RURAL COUNTIES' WERE STRONG WITH AN 8.4% INCREASE

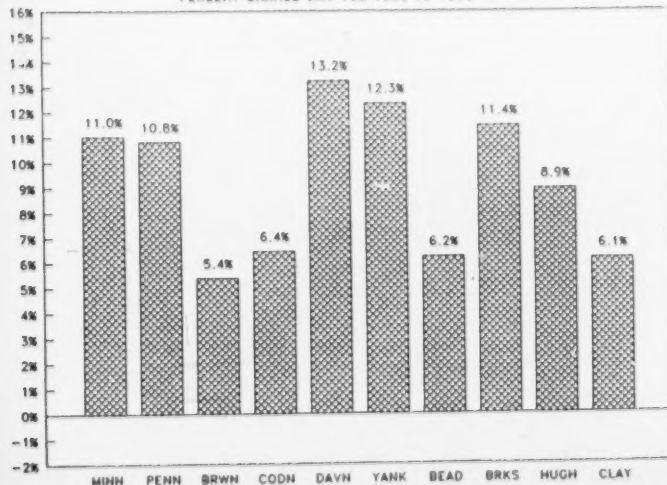

By Trent Stowater

The receipts for South Dakota retailers in the first bi-monthly period in 1990 showed a strong gain of 9.5% over the same period in 1989. The urban counties sales performance increased at a rate of 10% compared to an 8.4% increase for the rural counties. The difference between the urban and rural counties can be partially credited to construction sales. The urban counties saw close to a 47% increase, while the rural counties registered a decrease of 2.6% in the construction sector. Hughes county was a factor, showing the largest percentage increase in construction among the urban counties. Taxable sales were \$460,773 in January and February 1990 compared to \$71,597 a year before.

Performance for each of the top ten counties for January-February bimonthly is displayed in the graph below. All the counties represented in the graph showed increases. The largest growth was recorded by Davison County, 13.2%.

SELECTED TAXABLE RETAIL SALES

PERCENT CHANGE JAN-FEB 1989 TO 1990

As already alluded to, construction sales for the urban counties showed a 46.9% increase. Other sectors' sales performed well, too. Services showed a 12.2% increase and finance, insurance, and real estate recorded a 10.5% increase. The sale of goods exhibited a 9.3% increase and manufacturing sales were up 6.5%.

The rural counties showed increases in most sectors with the exception being construction. Manufacturing sales gained 38.4% and finance, insurance, and real estate sales showed a 25.3% increase. Services were up 14.7% and the sale of goods increased 7%.

National retail sales showed a 5.4% increase for the January-February bimonthly period. The national index of consumer sentiment showed an increase from the previous period, 90.9 in November to 93.0 in January.

BIMONTHLY PERIODS	MAR-APR 1989	MAY-JUN 1989	JUL-AUG 1989	SEP-OCT 1989	NOV-DEC 1989	JAN-FEB 1990

SOUTH DAKOTA Data Supplement

July 1990
Vol. VII, No. 3

Published by Business Research Bureau, The University of South Dakota

- * SOUTH DAKOTA'S RETAIL SALES IN THE MARCH-APRIL BIMONTHLY WERE UP 6.9%
- * RETAIL SALES IN COUNTIES OF THE TOP TEN CITIES GAINED 7.5%
- * THE MORE RURAL COUNTIES REPORTED GAINS OF 5.2%

By Randall Stuefen

The retail sales of the counties containing the state's ten largest cities increased 7.5% in the March-April bimonthly when compared to the same period last year. The rural counties reported increases of 5.2% for the bimonthly. Both groups, urban and rural, exceeded the 4.3% national growth rate for the two month period.

The mainstreet retailers of the "top ten" counties reported an average increase of 6.4% in the sale of goods and an 8.1% increase in the sale of services. Taxable construction sales were up 10.5% and manufacturing reported gains of 18.2% over the same time last year.

The more "rural counties" bimonthly sales of goods or tangible property increased 4.9%. The sales of services performed strongly posting an 11.2% increase exceeding that of the top ten counties (8.1%). Construction fell off dramatically compared to the same period last year (-34.9%) and taxable sales in the manufacturing sector also slipped (-0.8%).

There are noteworthy construction and manufacturing gains in

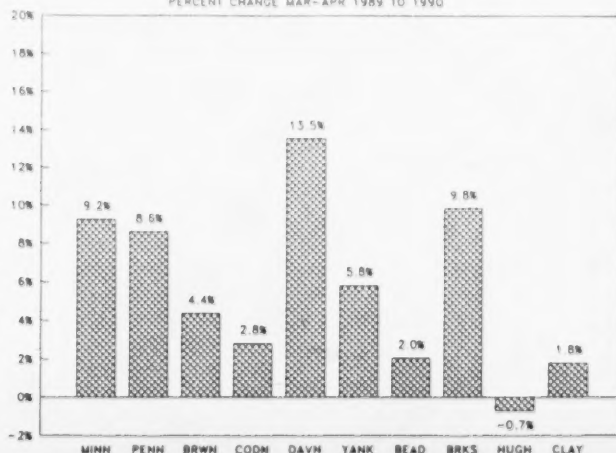

the first four (4) months of 1990. Construction increased 84.8% in Clay, 59.6% in Pennington and 36.0% in Codington counties. In the manufacturing sector, Beadle businessmen reported increases of 110.4% and the manufacturers in Brookings had a 51.8% increase in sales activity.

Davison county was the strongest performer of the top ten counties with an overall gain of 13.5%. That outstanding gain was made in spite of a decrease in construction taxable sales of 25.2%. The retail sales of goods were up 6.5% and the sale of services gained 9.7%, but the real change was in manufacturing and wholesale trade sectors. Manufacturing sales were up a noteworthy 21.7%, but the largest percentage gain was in the area of wholesale trade which was up 83.3%.

National retail sales grew 2.7% in the May-June bimonthly; this is down from the 4.3% increase in the March-April period. The national index of consumer sentiment for the period dropped from 91.3 in March-April to 90.6 in May-June.
